**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 recites the limitations "said second longitudinal portion" in line 4 and "said first longitudinal portion" in line 5. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4,8, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent No. 6,168,621 to Vrba.

Vrba discloses a stent in Figure 1 with longer struts (12) on one end. Vrba disclose a method of deploying this stent at the site of a bifurcation so that the longer struts expand to a greater diameter than the remainder of the stent (see Figure 4).

3. Claims 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent No. 5,609,605 to Marshall et al.

Art Unit: 3731

Marshall discloses a balloon in Figure 3 with portions having different diameters. The terms "ovoid" and "bulbous" are sufficiently broad enough to encompass the shapes of the balloon portions disclosed by Marshall.
